

In a preferred embodiment the canals are arranged such that there is a perimeter canal 54 that tries the edge of the face[s] and a front vertical canal 55 that extends from the orifice 52.

## **IN THE CLAIMS**

Please amend claim 5 to read:

5. The lip applicator according to [claim2] claim 2 wherein said window is made of PETG.

Please amend claim 8 to read:

8. The lip applicator according to claim 6 wherein said product is nail polish [7].

Please amend claim 12 to read:

12. The lip applicator according to claim 6 wherein said product is [a] an eye liner.

Please amend claim 15 to read:

15. The lip applicator according to claim 1 wherein said product reservoir [is] has a round side wall.

Please amend claim 17 to read:

17. The lip applicator according to claim 16 wherein the drive means is a disk [is] outside of the reservoir and secured within the body of the applicator, said disk supporting a screw means, said screw means having a driving member which

rides upwardly or downwardly on the threads as the body of the applicator is turned.

Please amend claim 20 to read:

22. The lip applicator according to claim 21 wherein the surface is slightly concave along both a vertical and horizontal axes to permit lip product to be retained on the surface when it is discharged from the reservoir.

Please amend claim 28 to read:

28. The lip applicator according to claim 27 wherein said plug is adhered to said cap by means of a protrusion that extends from an inside surface of said cap, said protrusion having [and] a hose adjacent to said cap, said protrusion being wider at its tip than at its base, and said tip mating with the side of the plug opposite said orifice.

#### Conclusion

For the foregoing reasons, the present application should be in condition for allowance.

Respectfully submitted,

Thomas A. O'Rourke
